

Advantages of Cozy Games Over Other Software

This short article is intended to provide you with further information on what you see in the table below. Choosing the bingo network or provider which is good for you can take a long time, so we wanted to highlight the main advantages of our chosen software platform, Cozy Games.

The first thing you see when you land on a bingo site is their welcome offer. No wonder that was our top criterion. The best thing on the market, a no-deposit bonus, is not that frequent to find. Fortunately, Cozy Games offer free sign-up bingo bucks in just two steps: fill in your details, verify your email. Most sites across the platform offer £15 free, but there are some that give away £20 to their new players. Another strength of Cozy Bingo sites is their treatment of players after the first deposit. All the networks viewed in the table offer re-deposit bonuses. Still, those at GameSys cover only the second deposit, for example.

As to mobile offers, most sites are on that train already. Not all, however, have gone the extra mile to full compatibility. Some offer apps and others open in browsers. Although Cozy Games work only on HTML5, the mobile offer is completely compatible with all operational systems and devices and it is something you may check on their company page. There are many devices to choose from and you will be able to see how the sites open on each.

You can see that we used 30-ball bingo as our fourth criterion for comparison. That's easy. Everybody offers 90- and 75-ball patterns. But on how many sites out there can you play 30-ball or speed bingo? Not many, trust me. With Cozy, it is a regularly played variation on all their sites. Landmark Bingo is our top choice of the Cozy Games sites. You will get your free sign-up bonus of £15 and your first 3 deposits will be covered by their welcome offer. Play free games every day and lots of 80-ball and Speed bingo with many chances for freebies.
